Dear Harold:

I have been unable to do any good in getting a tape machine out here at a discount, so I am sending you a check to get one back there. At least that way you can take advantage of the guarantee more easily if anything goes wrong. I have looked at one Panasonic makes - it is the same price as the Sanier, I don't know if it is comparable. anyway I hope you have a choice back there -

They sure dumped the JFK reopening Church and Schweiker + Pike really didn't do what they said they would, which didn't suprise me one bit. Nothing really changed because of the hearings on the Intelligence community, and nothing ever will

as you say, who will prosecute the prosecutors? I guess something good could happen to open things up some day but I doubt it — if the power is against it, it on won't happen — Hope things are going well on the King case. The judge out here shut off the RFK Sirhan re examination. I think Cal. attorney General Evel Younger has helped shut it up under orders from above —

Would you please send me a copy of White Wash. Also, did you do a book "Oswald in New Orleans"? I don't have it if there is one —

Hope your health is improving —

Sincerely
Paul
